#### Call for disaster declaration

Geclaration

Sen. John Hoeven and Sen. Kevin Cramer and Congressman Kelly Armstrong urged President Biden to approve Gov. Doug Burgum's request for a major disaster declaration covering the severe winter ice storm that occurred unlock federal resources to support recovery and disaster mitigation in the affected areas, including Barnes, Cass, Dickey, Grant, LaMoure, Logan, McIntosh, Ransom, Richland, Sargent, Steele, Stutsman and Trailli counties.

"The ice storm destroyed over consideration with a consideration of the considerat

### Oakes School Board votes to call special election, part 4

the Oakes Public School Board, members of the board voted unanimously to call a special election to approve the issuance of general obligation bonds for school building construction pur-poses. On March 14th, district voters will decide on a \$14.84 million plan to address critical fa-cility challenges at our 100-yearcility challenges at our 100-yearold school building. If approved, this plan will provide our school

- New HVAC systems
- Accessible bathrooms Updated kitchen infrastructure
- Repaired underground plumb-

OurSchoolOurFuture org to learn more about the plan to maintain key infrastructure throughout our school building.

As a district, we have been and will continue to be committed to will continue to be committed to ensuring transparency about de-cision making and information pertaining to the proposed project. During the next two months, we will be sharing a series of facility questions and answers (FCAs) focused and guided by stakeholder input. If you have any questions or concerns please questions or concerns, please contact Anna Sell, Oakes Public School Superintendent, at anna. sell@k12 nd us or 742-3234

Why are windows essential to the new HVAC system?

On Friday, January 12th, at the and air conditioning (HVAC) sysregular monthly board meeting of tem serving the high school and the Oakes Public School Board, both gymnasiums has exceeded was used to rank facility priorities members of the board voted its life expectancy and needs to unanimously to call a special be replaced. The windows in the provide a high taxpayer value for be replaced. The windows in the high school are in poor condition, leading to drafts and air leak-ages. Some windows do not stay open, and some have been filled with metal paneling. Windows are essential to the overall HVAC system performance, providing improved insulation, temperature control, and ventilation. New windows will reduce the workload on

dows will reduce the workload on a new HVAC system, resulting in reduced energy consumption, improved indoor air quality, and lower maintenance costs.

What did the district evalu-

te in developing the proposed

The decision to ask residents to fund critical investments in our school was not taken lightly by the school board and district administration. The district was committed to an open and transparent process to develop a transparent process to develop a plan based on data, community input, and a clear vision of how investments from the community would be used to address critical infrastructure needs. The longrange facilities planning process included several assessments to collect data: 1) stakeholder listening sessions, 2) a demographic analysis, 3) an educational adthe new HVAC system? equacy assessment, 4) a facility for the existing heating, ventilation, needs assessment, 5) two cores.

nity action committee. This data ntly action committee. This data was used to rank facility priorities based on the level of need and provide a high taxpayer value for the investment.

Did residents have input into the proposed plan for Oakes Public School?

For nearly a year, the district worked hard to gather feedback from residents through several listening sessions, two community-wide surveys, community open houses, meetings out in the com-munity, and a community action committee. In the fall of 2023, the committee. In the fall of 2025, the district hosted several community meetings to discuss the facility's challenges, gain feedback, and develop a dedicated website for two-way communication with residents. Input received from residents through this process helped the district identify the highest priority needs of our school: a new HVAC system and windows in the high school, plumbing in the high school, ADA-compliant restrooms school, ADA-compliant restrooms in the high school, and updated kitchen infrastructure and equip-ment. The proposed bond refer-endum would provide the funding to address these critical infrastructure improvements to best support our school's physical fa cility needs and provide a safe. healthy learning environment to

### Oakes program to help with recruitment and retention

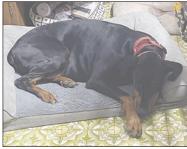

Talent attraction and workforce recruitment continue to be top priorities for the state of North Dakota and locally, our employers are reporting challenges with finding and keeping employees for the open positions in Oakes.

Enhancement, Inc. and a few local employers, is piloting a program to help make relocating to Oakes easier. The new position of Relocation position of Relocation Specialist was designed to support our local em-ployers with several key initiatives in the recruit-ment and retention ef-forts for newcomers. TJ Roney, a 2018 OHS graduate, started graduate, started in this role on January 15. During the recruitment phase, TJ will offer com-

munity tours to prospective em-ployees/residents, tailoring the information to their interest areas. She'll get people the resources they need to make Oakes their home, including housing options, community groups/clubs to get

involved with, and the contacts people need to know. Throughout their first year in Oakes, TJ will specifically work with newcom ers to ensure they are finding their way in town. We often take for granted the difficulty people face when moving here with no connections other than their emconnections other than their em-ployer. When people plug into the community and find a general sense of belonging, they are far more likely to stay. We are ex-cited to test out this idea and the state of North Dakota has already taken notice of it. This is a highly personalized approach to help ing people choose Oakes; there are few decisions more personal than deciding where to live. If you are a newcomer or have recently are a newcomer or have recently employed a newcomer to Oakes, reach out to TJ to take advantage of these services. She can be reached at relocation@growing-smalltowns.org or 701.335.6494.

### Harris opens her home to foster dogs

Darrien Harris, who lives on Darrien Harris, who lives on a farm outside of Oakes, has been fostering dogs for several months.

The dogs come from Dober-man Rescue in Minnesota. They

have a lot of dogs that need new homes, and they are in need of fosters.

Darrien fosters two dogs at a time, since she and her husband time, since she and her husband Mason have three dogs of their own. With their English bulldog, Doberman and German shep-herd, she is kept busy every day. Darrien is from upstate New York, and Mason grew up in Crete. They've been married almost six months. Their farm is a great place for the dogs to run and play. They have outdoor kennels so when they're gone, the

dogs are not in little crates all day
The picture above is one of the
dogs Darrien is now fostering

dogs Darrien is now tostering. She says she enjoys training and walking the dogs.
It's a good thing that there are people like Darrien who are willing to give of their time and love to help rescue these beautiful dogs. dogs.

#### Voters want more say on use of Legacy Fund list published, while 6% do not see a margin of 88% to 5%. Addition-

By Michael Standaert North Dakota News Cooperative

Eligible voters across North Eligible voters across North Dakota favor major overhauls in how the state's Legacy Fund is managed and how its accumulating funds are used, a new North Dakota Poll conducted by the North Dakota News Cooperative (NDNC) found.
This includes changing where Legacy Fund investments are file-

Legacy Fund investments are directed and increasing transparency over what's sometimes called "the people's fund."

"the people's fund."
According to the poll, 60% of eligible voters want Legacy Fund investments to be directed to development projects in North Dakota versus 18% who want the fund to continue to focus mainly or proving through a return on inon growing through a return on in-

A majority of 68% of voters also want Legacy Fund investments to be made "within the state of North 84% of eligible voters want such a

Dakota" instead of following the current policy of putting most of

current policy of putting most of the money into investments out-of-state or in foreign countries. Just 6% favored the status quo. These results leave no doubt. The people of North Dakota want major policy changes and they know what they want their sov-ereign wealth fund to be used for," said Trevor Smith, the Chief Research Officer of WPA Intelli-Research Officer of WPA Intelligence, the national research firm

that conducted the survey.

Much of the consternation appears directed at the State Investment Board (SIB), the body responsible for administering the

responsible for administering the fund.

This includes a desire for SIB to publish a list of Legacy Fund investments on its website and/ or elsewhere instead of requiring citizens to file a formal reques

a need for a published list. "The voters want more transpar-

ency about the investments being made with their tax dollars," said

Smith.
Eligible voters also appear in the dark about the work SIB does in managing the Legacy Fund, with 75% unfamiliar with how it manages the fund, compared to 17%. who had some level of familiarity. The board is currently chaired by

Lt. Gov. Tammy Miller.

"This is an important govern-

"This is an important govern-ment board but it's a mystery to most voters," said Smith. Support for more transparency spans the political spectrum, with self-identified Republicans, Inde-pendents and Democrats all sup-routing the publication of invest. porting the publication of investments at levels exceeding 80%.

Independent voters, who make up a third of the electorate, support publishing the investments by ally, voters with college degrees support this policy change by an 89% to 7% margin while those with a post-graduate degree sup-port the change by a 91% to 3%

margin.
"ND Poll results demonstrate that what the State Investment Board is doing and what the vot-ers want them to do is emerging as an issue," said Steve Andrist, co-chair of the NDNC.

co-cnair of the NDNC.

The Legacy Fund, sometimes called a sovereign wealth fund and sometimes a "rainy day" fund, was created by a constitutional amendment initiated by the state legislature and approved by voters in 2010.

in 2010.

The current overall value of the Legacy Fund stands at around

\$9.8 billion.
A total of 30% of oil and gas gross production and oil extraction taxes on oil and gas goes toward the fund each month. An average of over \$54 million has been de posited monthly over the past 12

Since 2019, earnings from the Legacy Fund averaging around \$500 million have been trans-ferred to the legislature each bien-nium, based on a 7% of the valuation of the fund over a five-year average, for use with fixed-asset investments, infrastructure proiects and stabilization deposits with the Bank of North Dakota

"Our new poll has discovered a "Our new poll has discovered a major disconnect between what the voters want from their Legacy Fund and what their public officials are doing with it," said Jill Denning Gackle, an NDNC co-chair. "They are not making a connection with the Legacy Fund and their own the Legacy Fund and their own

lives or communities."
The poll provided one question directly impacting the lives of people across the state, asking eligible voters whether the fund should be used for things like snould be used for things like eliminating local property taxes in addition to focusing on a return on investments, with a margin of 59% to 17% in favor.

"These large margins tell me that the voters want the Legacy Fund to directly benefit themselves and their communities." Smith said

their communities," Smith said. Looking ahead to the 2024 general election, the poll shows that voter interest is increasing, with those planning to vote rising to 78%, up from 71% in the previous

78%, up from 71% in the previous ND poll taken last November. The new North Dakota Poll surveyed 500 eligible and likely voters between February 4-6, 2024 and has a margin of error of +/- 4.4%. North Dakota News Cooperative is a non-profit news organization focused on reporting on topics that impact the lives of North Dakotans and promoting news literacy.

sideration and nomination by their instructor or instructors. This award is not grade point or grade level Nominations will be made by the faculty each month and approved by the Southeast Region Career and Technology Center Board of Education.

dogs. As soon as he went in, he was greeted by his best friend, Orson, the four year old Boston Terrier. Right behind Orson was Rosie, a tan standard poodle and Vera, an elderly German Shophord. Cooper is nine months old now

#### Cooper's Corner by Martha MacLeod 🎎 and the smallest pup at the party. He is also the fastest and life of the party. He led his friends on a race "catch me if you can" and no one could quite keep up except Life of the Party

for Orson. Cooper was running in circles and Orson discovered

he could cut across the circle and

he could cut across the circle and pounce on Copper. That led to a wrestling match while Vera and Rosie watched.

Last week was muddy and mushy outside. Of course, Cooper went out to play. He couldn't resist the opportunity to roll in the muld like a little piglet. He was so happy. But when he came in he was taken straight to grooming for a bath. When I went to pick him up after the party he dogs. As soon as he went in, he to pick him up after the party he ran toward me with a happy face.

He was a clean and shiny little party animal.
Whenever I watch football or TV, I enjoy the ad for puppy bow which is on Supper Bowl Sunday Cooper is the perfect little quarterback. He has his own little featherlies has been also were the support of the perfect little particular than the support of the support of the perfect little particular than the support of the support football in the backyard where he football in the backyard where he plays"one dog football." He races around with the six inch footbal clenched in his mouth until he fumbles the ball. It falls out of his mouth and he scrambles to gel it back. It slips and slides on the ground until he can get ahold of i and then he looks at me. I'm his cheerleader I shout! "Go Cooper cheerleader. I shout "Go Cooper! You can do it!" and he starts the play over again. He's a rea champion

#### How Did He Get In There?

Somehow Somenow three-year-old Ethan in Queensland, Australia managed to work his way into a claw machine via the chute through which prizes are dispensed. In this case it was a Hello Kitty

plush toy machine. plush toy machine.
Using hand gestures, Dad signaled his boy to stand far back in the machine's container allowing police to smash through the glass pane.
All's well that ends well. When the ordeal came to a successful

end, one of the police officers told Ethan, "You won a prize which one do you want?"

#### November 6, 1933 ~ February 4, 2024

**Beverly Malmberg** November 6, 1933 ~ February 4, 2024

Beverly Rae Randol, daughter of Alton (A.C.) and Lillian (Knutson) Randol was born on November 6, 1933. The Randol family farmed in Glover and in the Bear Creek vicinity, Bev graduated from Oakes High School in 1951 and was active in the Drum and Bugle Corps. She worked in the bank following graduation. Bev married Stanley Duane Malmberg on July 20, 1954, at Webster, 50 and following their marriage they farmed on the Malmberg family farm east of Oakes. Following raising her family, Bev managed the Fraternal Order of the Eagles Club and served as the President of the Auxiliary, Bev then took her management talents to the Oakes Golf Course. After the passing of her husband, Stanley, she moved off the family farm and into Oakes, where she loved to decorate for every holiday. Bev and Janet Burkhardt skatted, a walliapaering business and completed inbs at several homes and businesses. She followed up started a wallpapering business and completed jobs at several homes and businesses. She followed up that business by retiring after working for several years for nephew Dr. Mark Malmberg, D.D.S., as the

Bey and the "Golden Girls" were some of Oakes High School's greatest cheerleaders over the years. She enjoyed going to all the activities and missed attending them in person. She loved the sporting events most and served as President of the Oakes Team Makers. Bev was an avid fan of the NDSU Bison and the Minnesota Vikings and Twins. Bev enjoyed organizing parties for the "Red Hats". "Widow

Club\*, trips to Hankinson and love of lutefisk supers.

In December of 2015, Bev become a resident of the Good Samaritan Society in Oakes following a stroke. She spent eight years as a resident and made many friends with the staff. In November of 2023, Bev turned 90 years old and had a wonderful celebration attended by many friends and family. Bev passed away on Sunday, February 4, 2024, at the Good Samaritan Society in Oakes.

She is survived by her three sons and a daughter. Slephen. Oakes, ND, Scott (Debra), New York Mills, MN, Lori (Perry) Tostenson, Montevideo, MN, and Michael, Lake Shore, MN; two granddaughters, Andrea (Adam) Mather and Erica (Zach) Peterson; three great-grand-cellution.

children, Alec, Scarlett and Parker; a sister-in-law, Carol (Casey) Randol; her best friends, Peggy (Rod) Rodningen, Janice Totenhagen, and

children, Alec, Scaffiett and Parker, a sisteri-in-iaw, Caroft (Lasey) Arandor, fier best mends, Peggy (Rod) Rodningen, Janice follennagen, and Maurice and Pat Orn; and several cousins, nephews and nieces.

Beverly was preceded in death by her parents, Alton (A.C.) and Lillian; husband, Stanley; son, Bradley; her in-laws, Martin and Mary Malmberg; brother; William; sister and brother-in-law, Darlene and Charles "Pete" Peterson; nephew, Warren Peterson; her dear friend, Arlene Meehl, and many other family and friends.

Visitation was held on Saturday, February 10, 2024 from 1:00 p.m. to 2:00 p.m. followed by her funeral at 2:00 p.m. at Grace Lutheran Church in Oakes. Bev's service was live streamed on the Dahlstrom Funeral Home website www.dahlstromfuneralhome.com on her obituary page. Burial will be at the Oakes View Cemetery.

# Sympathy

#### Repent, Reboot, Resolve at St. Charles Catholic Church

Six Stone Jars Mission, featuring Deacon Ben Seitz, will be sharing a series of three 90-minute presentations starting February 25 at St. Charles Catholic Church in Oakes. Each of the three scripturalbased presentations is grounded in Catholic theology.

"REPENT: Building a Life of Virtue" at 1:30 p.m. on Sunday.

February 25.

"REBOOT: Finding Peace Through Mercy" at 6:30 p.m. on Monday, February 26.

"RESOLVE: Living to Win!" at 6:30 p.m. on Tuesday, February

Recognizing that where sin increased, grace overflowed all the more, the "REPENT" presentation on Sunday afternoon (1:30 p.m. on February 25) will open with a reflection on eternal life in heaven with Christ. It will then pivot to examine sin, the greatest threat to that eternal life. The root causes of sin will be explored by reflect ing on the story of Adam and Eve and original sin. The session will conclude with an overview of the Sacrament of Penance and

will conclude with an overview of the Sacrament of Penance and Reconciliation.

Monday evening, February 26 at 6:30 p.m., the "REBOOT" presentation will begin by proclaiming that the utilimate source of peace in our lives can only come from a personal encounter with Jesus. By reflecting on the parable of the Prodigal Son, we will come to understand the depth and breadth of God's mercy. The session will conclude with an overview of the Divine Mercy of Jesus, the ABC's of Mercy, and recitation of the Divine Mercy Chaplet.

of Mercy, and recitation of the Divine Mercy Chaplet.

Providing tools to develop a spiritual life plan will be the goal of the "RESOLVE" presentation on Tuesday evening, February 27 at 6.30 p.m. The session will focus on participation in the sacraments, listening to the Word of God, and developing a daily prayer life. A dynamic exhortation of the graces that are available through Jesus Christ and His Church will bring the session to its conclusion. The presenter for all three sessions will be Deacon Ben Seitz. He holds a Master's degree in Theology from Catholic Distance University and was ordained in the Fargo Diocese in 2020. He currently serves at Sts Anne and Joachim Catholic Parish in Fargo. He

rently serves at Sts. Anne and Joachim Catholic Parish in Fargo. He and his wife, Jennine, have five children and served 23 years in the US Air Force prior to settling in the Fargo Diocese.

### Prairie Fare: Could rice be a foodborne illness hazard?

BY JULIE GARDEN-ROBINSON, NDSU EXTENSION FOOD & NUTRITION SPECIALIST

Follow the cooking directions on the package and keep cooker rice at a minimum of 140 degrees to ensure safety. (Pixabay photo)

My husband and I took bites of the rice on our plates at the same time in the restaurant. We looked up at each other immediately. The rice was at room temperative with the restaurant of the public must be at a minimum of 135 degrees Fahrenheit, according to the Food Code issued by the Food and Drug

ture. We expect cooked food to

be served hot.
I pointed at the rice with my fork and mouthed, "Don't eat it."
The rest of our food was not particularly hot either. I could

particularly hot either. I could not ask to inspect their kitchen because I am not a badge-carrying health inspector. I have, however, trained hundreds of students and professionals about food safety, so I was thinking about the possibilities.

I knew that mishandled rice has been implicated in many foodborne illness outbreaks.

One busy person was serving as the host, server and cashier as the host, server and cashier in a good-sized restaurant. Was our food plated and left on a counter? We did not know the length of time the food had been sitting outside of temperature control.

Or, had the food been made earlier in the day and not held hot on the serving line? Was their hot-holding equipment malfunctioning?

room-temperature ot worth the risk.

HOME FOR SALE: 1108 7th St S, Oakes, ND

offers separate entrances. Potential to convert to one unit or

Administration. Why was I worried about the rice? Heat-treated plant foods such as rice have been linked such as rice have been linked to many foodborne illness outbreaks. Experts estimate that more than 63,000 people are sickened annually in the U.S. from a microorganism associated with mishandled rice. When cooked rice and other starchy foods including pasts.

starchy foods, including pasta and potatoes, are held at lower temperatures, the bacteria can produce toxins in the food. That

was my concern.
Rice, for example, can contain Rice, for example, can contain Bacillus cereus, a type of bacte-ria that can produce a heat-stable toxin (poison) in food. When rice is properly cooked and stored, it does not cause a problem. If I had taken the potentially contaminated rice home and

contaminated rice home and cooked it to a high temperature, I would not have been able to inactivate the toxin

In fact, the usual type of toxin in mishandled rice can cause vomiting and sometimes diar-rhea within 30 minutes to five

Fantastic split level home! Each level offers over 1,500 sq. ft. of living space including 3 bedrooms and 2 bathrooms. Property currently

hours. Another syndrome associated with this hacteria can cause diarrhea within 16 hours. In both diarrhea within 16 hours. In both cases, the symptoms disappear within a day or two but could have more serious effects among older and younger age groups. We left the rice on our plates. The risk was not worth it. I need to let the health department know both this. I hought

about this. I thought.

"I'm feeling a little twinge," my husband said as we were leaving. I wasn't sure if he was serious as kiddis."

ing. I wasn't sure if he was serious or kidding.

We were about 15 minutes
from home. Step on it, I thought
to myself as he drove us home.
I only had my purse in the
car, not a barf bucket. I was not

ready to sacrifice my new purse Fortunately, we did not get sick If the restaurant had not been so busy and understaffed, I would

so busy and understaffed, I would have let the server know. We probably should have assessed the situation and left before ordering food.

I am hoping that two large piles of rice on our plates gave an indication of our dissatisfaction with the food.

the food.
I will discuss this incident with a local inspector, or my con-science will bother me that I'm putting others at risk.
Is it possible to have safe rice?

Is it possible to have safe rice?
Of course. We eat rice regularly
in our home and in restaurants.
When making rice, follow the
usual food safety rules. Wash
your hands before beginning
to cook, and follow the cooking
directions on the package. directions on the package.

If you are cooking rice ahead of time for your family or guests, hold it hot. That means 140 degrees Fahrenheit accord-ing to the U.S. Department of ing to the U.S. Department of Agriculture's home food safety rules. Measure the temperature with a food thermometer to be sure the food is hot enough. Keeping hot foods hot will pre-

vent the growth of bacteria and the production of toxins.

If you decide to make rice ahead of time and serve it later follow some additional rules follow some additional rules.
Cool it quickly. Divide the cooked rice into small containers only two or three inches deep. A metal container, such as a cake pan, cools food faster.

Use the properly refrigerated leftover rice within a few days. If you ever doubt the safety of food at home or in a restaurant, take the safe route.

take the safe route.

Here's a recipe from the lowa
State University "Spend Smart."
Eat Smart." program. It uses
higher-fiber brown rice in place
of white rice, but the same food
safety rules apply.

Fried Rice

3 acros (lightly beaten)

- 3 eggs (lightly beaten) 2 tablespoons oil (canola, vegetable or peanut)
- 1/2 cup onion, chopped
  2 cloves garlic, minced (or 1/2 teaspoon garlic powder)
  3 cups brown rice, cooked and
- cooled 2 cups frozen vegetables,
- thawed 2 tablespoon low sodium soy

sauce (or to taste)

Heat a large skillet or a wok
over medium heat. Spray with over medium heat. Spray with nonstick cooking spray. Add eggs. Cook and stir for 3 minutes or until eggs are firm. Set eggs aside on a plate. Add the oil to the skillet. Heat over medium heat. Add onlon and garlic. Cook and stir for 3 minutes. Stir in the rice, vegetables and soy sauce. Cook and stir for 67 a minutes or Cook and stir for 3 minutes or until heated through. Stir in eggs.

Makes eight servings. Each serving has 175 calories, 6 grams (g) fat, 6 g protein, 25 grams carbohydrate, 3.5 g fiber

grams carbohydrate, 3.5 g fiber and 190 milligrams sodium. (Julie Garden-Robinson, Ph.D., R.D., LR.D., is a North Dakota State University Extension food and nutrition specialist and professor in the Department of Health, Nutrition and Exercise Sciences 1.

#### NDSU Extension to host horse management webinar series

Emergency first aid is just one of the topics that will be covered during the NDSU Extension horse management webinar series.

Horse owners and stable man-agers will have the opportunity to learn management strategies and ask questions during a webinar series that North Dakota State University Extension is hosting at noon CDT on Wednesdays in

Topics will include an overview Topics will include an overview of genetic diseases in the quarter horse breed, weed and manure management in pastures, prevention and detection of communicable equine diseases, and emergency first aid until the veterinarian arrives.

ian arrives.
"The goal of these webinars is to empower our equine owners in North Dakota to confidently apply what we share to their animal care routines or land and resources management," says Mary Keena, Extension livestock environmental management specialist at NDSU's Carrington Research Extension Center. "Understanding genetic diseases, knowing how to prevent a communicable disease and effectively applying first aid to your animal while waiting for a veterinarian in an emergency situation may not only save the animal's life but is also part of animal husbandry and ownership," says Rachel Wald, NDSU Extension's

Rachel Wald, NDSU Extension's agriculture and natural resources agent in McHenry County. "Management of your grazing resources by way of weed and manure management can help you increase the usable parts of your nashings ensuring longevity. your pastures, ensuring longevity of the grazing season," says Paige Brummund, NDSU Extension's agriculture and natural resources agent in Ward County.

# 2024 National Career and "Celebrate Today,

**OPPORTUNITIES** 

The Board, faculty, administration and students at Southeast Region ask and students at Southeast Region ask that you join in clebrating National Career and Technical Education (CTE) Month. This year's state theme is Preparing Tomorrow's Workforce! This is a time when we showcase CTE programs that prepare students to be college and career-ready and prepares them for high-wage, high-demand career fields and advanced college morearies. college programs.

The Southeast Region Career and

Technical Center (SRCTC) has a vi-sion to be the leader in best practices of Career & Technical Education in of Career & Technical Education in North Dakota. We as a center are ful-ly committed to providing cost effec-tive CTE opportunities to our local schools. CTE is a valuable aspect of an educational experience that prepares our students for the future. It should not matter if our student transition. not matter if our students transition to a post-secondary school, trades technical school, military, or to the world of work, each need skills to enworld of work, each need skills to en-able them to be productive citizens. CTE courses and student organiza-tions provide opportunities for our students to not only learn specific technical skills but the industry de-sired soft skills that are required to become better leaders. The Southeast Region Career/Tech Center with locations in Wahneton

and Oakes has provided CTE pro-gram opportunities for the students of southeast North Dakota since 1973. Member schools of the SRCTC include Campbell-Tintah, Edgeley include Campbell-Tintah, Edgeley, Ellendale, Fairmount, Hankinson, Kulm, Lidgerwood, Lisbon, Milnor, Oakes, North Sargent at Gwinner, Richland #44, Sargent Central at For-man, Wahpeton and Wyndmere.

One thousand nine hundred stu-dents from Southeast Region schools attend classes on-site in Center pro attend classes on-site in Center programs, or take part in career/tech classes through the Greater Southeast ITV Network. SRCTC is the largest career/tech Center in North Dakota from both a geographic attudent enrollment standpoint.

The Center is governed by a fitten member school board including Neil Planteen, Sargent Central, Chair; Kris Beck, North Sargent, Vice-Chair; Michelle Nelson and Lisa Graves, Wahpeton; Matt Asp.

Lisa Graves, Wahpeton; Matt Asp, Hankinson; Sheila Nagel, Oakes; Ben Loll, Campbell-Tintah; Marcus Gef-fre, Fairmont; Sadie Siemieniewski, fre, Fairmont; Sadie Siemieniewski, Lidgerwood; David Puetz, Wynd-mere; Val Wagner, Ellendale; Mark Qual, Lisbon, Chad Fyre, Milnor; Dereck Beito, Richland #44 at Col-fax; and Amanda Huber, Edgeley. The Center office staff includes: Jodi

sistant; Janel Sayler, Business Manag-er; Dan Spellerberg, Director; Eileen er; Dan Spellerberg, Director; Eileen Vculek, Administrative Assistant; and Randal Brockman, Assistant Director. With a regional service focus, monthly school board meetings for the Center are held over the ITV Network. The State CTE Director is Mr. Wayde Sick and Asst. State Director is Mark Wagner. One of the cornerstones of Career and Technical Education is to help young people determine their future college and career plans. Students

young people determine their future college and career plans. Students taking CTE courses in high school have the opportunity to explore a variety of career and college pathways and make informed choices helping students be <u>Choice Ready-this includes post-secondary military</u>, or cludes post-secondary, military, or the workforce! Students have a higher achieve-

ment rate of earning the North Da-kota Scholarship. In fact, students from SRCTC have a scholarship attainment rate of 38.14% in 2023 as compared to a statewide average

compared to a statewide average of 22%, in earning this important \$6,000 scholarship! Work-based learning opportunities are a cornerstone of what we provide for our students. Students who are enrolled in CTE classes can participate in cooperative work extended to the compared to the cooperative work extension and compared where their work of the cooperative work of the cooperative work extension and compared where their work of the cooperative work extension and compared where the work extension are compared where the cooperative work extension are compared to the cooperative work extension and the cooperative work extension are compared to the cooperative work extension and the cooperative work extension a perience programs where they work

credit and are also in paid employ-ment relationships, which greatly increase their technical and interper-sonal skills. This past year, students in the Agriculture Education SAE and Work-Based Learning programs earned over \$2,318,265! It's a proven fact, students who take two or more CTE classes in high school have higher reading and math

school have higher reading and math school have higher reading and math scores on state assessments and have a higher graduation rate. In addition, the ability to take the abstract and frame knowledge in the context of applied situations greatly improves student success in higher education. The Southeast Region Career/Tech Center's primary focus is to meet the educational needs of students in courses and programs in the career preparation arena. This includes classes that prepare students for classes that prepare students for work, 2-year degrees, 4-year degrees, advanced degrees and the careers that go along with all these educa-tional pathways. The programs and courses offered include:

This course allows dual credit for Manufacturing 110 & 123. AREA GUIDANCE AND

COUNSELING PROGRAM

The Southeast Region Career/ Tech Center Guidance staff includes Ashley Michael at Campbell/Tintah;

Danielle Luebke serving Hankinson K-12; Haley Lautt serving Wynd-mere; Kim Quast serving K-12 in Lidgerwood and Fairmount; Daisy Canfield serving Wahpeton High School; Darci Weber serving K-12 School: Darci Weber serving K-12 in Milnor; Rhonda Weigels esrving in Milnor; Rhonda Weigels esrving North Sargent and Ed Wentworth serving Oakes High School. The Center's Guidance Program is built on a philosophy that counselors work in the school classrooms as well as working with small groups and individual counseling services. Included in these services are personal, social, and programs of the programs of emotional, crisis, career and educa-tional planning. A major component of the Guidance Program is assist of the Guidance Program is assist-ing students with post-secondary options and related scholarship and financial aid opportunities. <u>SRCTC</u> <u>Counselors have assisted the SE</u> <u>North Dakota class of 2023 to qualify</u> <u>or \$714,000 worth of ND State Aca-demic and CTE Scholarships to at-tend ND Colleges and Universities.</u>

tend ND Colleges and Universities. CHEF TRAINING AND RESTAURANT MANAGEMENT

The Center continues to strive to meet the needs of area businesses and students through contemporary programs and opportunities. Mr. Jerry Prante is the Chef Training Instruc-tor in Wahpeton, and Mrs. Anna

Kemmer teaches out of our Oakes kitchen. This program is designed with a focus on food preparation, food quality, sanitation, food service business management and general restaurant operations. Students learn skills that lead to excellent part and skills that lead to excellent part and full time work while they attend col-lege, to prepare for life-long careers in the food service industry or to be knowledgeable consumers. Courses also offered by Mrs. Kemmer at the Oakes Center are Nutrition & Food Prep and Baking & Pastry Science. HEALTH SCIENCE CAREERS Health Sciences is the program of

Health Sciences is the program of choice for students with career interests in one of the many fast growing health career industry areas. Stu-dents complete CPR Training and Red Cross First Ald certification, anatomy, physiology, and primary care as part of the core curriculum. In addition to lab and classroom in-struction, students have career ex-ploration experiences through the extended classroom program. The Health Careers, Instructor is Mrs. ests in one of the many fast growing Health Careers Instructor is Mrs. Lisa Keaveny. Students use on-line companion software, e-books, video conferencing and numerous lab activities in this comprehensive medical related career preparation pro-gram. Numerous students also earn

their Certified Nurse Assistant Certi-fication and Mrs. Keaveny also teach-es dual credit health classes affiliated with NDSCS. Students are also able to enroll in EMT Training, Advanced EMT, and Patient Care Technician classes via ITV. Those classes are taught by Mrs. Cary Wertz, Registered Nurse and Certified EMT In-

tered Nurse and Certified EMT Instructor. These classes allow Southeast ND Students to serve on our
rural ambulance crews!
MARKETING/BUSINESS
TECHNOLOGY
Marketing/Business Education
provides students with an overview
of marketing occupations. It conserves human relations, personality in busimase hustiness meth and computed. ness, business math and communicaness, business math and communica-tions, point of sale operation, change making, employee cooperation, ca-reer opportunities, product knowl-edge, consumer buying motives and personal selling. We have two in-structors: Mrs. Renee Langenwalter in Wahpeton, and Ms. Amber John-son in Oakes. Using projects and on-line simulations, students acquire an understanding and appreciation of understanding and appreciation of marketing activities. Current technology will be used to acquire information and to complete the projects.

Throughout the course, students are presented with problem-solving

situations for which they must apply academic and critical-thinking skills. Courses also offered by Ms. Johnson at the Oakes Center are Entrepre-neurship, School-Based Enterprise and Sports Marketing. CONSTRUCTION

TECHNOLOGY

TECHNOLOGY
This year's Construction Technology classes are building a new home that features 1,492 ft. of main floor living space and will be redy for occupancy in June of this year. This new 4-bedroom home serves as great 'hands-on' learning project for students with an interest in the Construction trades and will be Construction trades and will be the Construction trades and will be located and available for purchase in the Westdale Development Lot #6, 18th Ave. North. The instructor is Mr. Aaron Stone. Business partis Mi. Autori stone: Business part-ners include: Riverside Building Center, Hills Cabinetry, Wahpeton Ace Hardware, Storms Electric, Ber-nstein's Plumbing, and Schmitty's

Plumbing & Heating. LEADERSHIP DEVELOPMENT The student youth organizations that are associated with Career and Technical Education programs serve as a critical piece of student's development in the areas of leadership

opment. These groups include the FFA, SkillsUSA, HOSA, FCCLA, and DECA. There are few places in public education that better prepare students for future roles in service clubs, public office or community clubs, public office or community leadership positions. A new instruc-tional component in Ag Education is the implementation of Community Development classes that focus on hands-on, civic minded projects and activities as well as community and public organization service projects actively engaging young people in the community at large. NEW AND EXCITING! The SRCTC is excited about our

The SRCTC is excited about our expansion projects that will provide our schools the opportunity vide our schools the opportunity to provide added resources to enhance meeting the needs of our everchanging workforce. If we are to be a leader in CTE and prepare students for the most current In-Demand Occupations, we need to better equip our staff to ensure they do their best with the resources provided. We are looking forward to our new course. looking forward to our new cours offerings in Edgeley with the addi-tion of classroom, culinary kitchen and adequate lab space for Auto and Agriculture for the fall of 2024.

#### Dakota Gardener: Planning your garden

By Emily How, NDSU Horticulturist

My 2023 garden mission was to make my husband enjoy gar-dening. He's a city boy from San Antonio, Texas, who until recently was unaware that pick-les came from cucumbers. My work was cut out for me! How do I make someone who has never gardened enjoy the time and labor-intensive process?

As it turns out, it was easier than I expected. Planting varieties that I knew he would enjoy

eating and want to harvest was the key.

With the pleasant weather With the pleasant weather we have had the last couple of weeks, the itch to start planning a garden has set in for both me and my husband. We cracked open the seed catalogs and started flaggling everything that looked good or interesting.

Seed catalogs are a fun way to start planning your garden. My husband, the new gardener, prefers a seed catalog with bright colorful pictures of the different

9 4 5 1 3 2 6 8 7 1 8 3 4 7 6 2 9 5 6 2 7 9 5 8 3 4 1

that goes into detail about disease resis-

varieties. I pre-fer something

disease resis-tance, germina-tion time and flavor profile. Together, we created a sub-stantial list.

Armed with our list of plants to grow this year, we can year, we can design our gar-den in a way that makes the most sense. For a new gardener, the idea of planning

a garden can

be intimidating. Flipping through the catalogs can be overwhelmthe catalogs can be overwhelming and it can be hard to choose what to grow. If you are unsure, start small or have fun with a themed garden. These gardens create an element of fun when introducing gardening to a beginner and they can help beginning gardeners decide what to plant. A common themed garden is a pizza garden in this garden.

a pizza garden. In this garden. you would grow plants that would be used on a pizza like tomatoes, onions, eggplant and basil. When it is time to harvest everything, you can enjoy a garden-fresh pizza. Another variation is a salsa garden, where peppers,

### Prairie Doc... Fundamental Functions: Ear, nose, throat

By Debra Johnston, MD
I confess that occasionally even doctors get squeamish. Or perhaps more honestly initial doctor does. My personal list has gotten pretty short, but one of the things that still makes me squirm is something I nevertheless frequently recommend to less frequently recommend to my patients. So what is this mysterious

and rather ominous medical recommendation? Nasal saline

recommendation? Nasai saline irrigation.

The practice of rinsing the nose out with liquid probably originated centuries ago in India, and it remains part of spiritual ritual as well as traditional medicine around the world. However, it isn't something I learned about in medical school Western medical research into it

Western medical research into it began in earnest perhaps 25 to 30 years ago.
How does this rather tortur-ous sounding practice help? It physically removes germs, allergen and irritant particles, it loosens thick mucous, and it helps the cilia — the tiny hairs lining our ainways—clean things out

our airways— clean things out.

Although the practice is generally safe for almost everyerally safe for almost everyone, there is one very important
caveat. Your equipment must
be clean, and the solution used
prepared with sterile or distilled
water, to prevent a very rare, but
highly deadly, infection.
When I tell someone I think
they should flush a cup or so of
saft water into one nostril and

salt water into one nostril and out the other one, and then do it again from the other side, they usually react with dismay. I

freely admit that the idea sounds pretty awful, and that it makes my toes curl every time I suggest it. Then I tell them a story.

I first recommended this for a patient who was all of seven years old. Her horrible allergies and chronic sinus problems trig-orered frequent asthma attacks. gered frequent asthma attacks. She had a collection of inhalers and pills from the allergist, her and pills from the allergist, her dad had tom up the carpet, and the family dog was bathed twice a week and banished to the back yard. Parents, child, and doctor were all a little desperative When I rather hesitantly suggested nasal saline irrigation, her mom was willing to try it. her mom was willing to try it.

A month later, my little patient came dancing down the hallway, came dancing down the hallway, announcing with glee "Dr. Deb, Dr. Deb, I love my Netti Polt" The simple act of regularly rinsing the allergens and irritants out of her nose had improved her symptoms so much that she could play outside with her dog, Now I tell my reluctant patients that if a literal child can do it, we can horrow some of her courage. can borrow some of her courage and try it too

and try it too.

If you suffer from chronic
sinus problems, or even just the
next time a cold or allergies has
you stuffed up and miserable,
ask your doctor if you should girt
your teeth and give it a try.

### NDSU NDSU Crop Pest Identification and managements school set

North Dakota State University (NDSU) Extension and the NDSU Department of Plant Pathology has set the 2024 Crop Pest Identification and Management Identification and Management School (formerly Eastern Crop and Pest Management School) for Feb. 27 and 28 at the Fargodome in Fargo, North Dakota. The school is geared towards

first- and second-year crop scouts and will cover multiple topics including disease identification insect identification and herbicide symptomology in wheat, barley, corn, soybeans, dry beans, canola and sunflower

Each topic will feature an inter-active session that includes tra-ditional instruction accompanied by a hands-on identification and

learning opportunity.
"The program has been developed to address both insect and oped to address both insect and disease pests on a crop-by-crop basis," says Andrew Friskop, NDSU Extension plant pathologist. "Attendees will walk away with a better awareness of pest problems in Northern Great Plains crops, and tips on how to identify insects and diseases in the field." Undergraduate students at

NDSU also have the opportunity

Attendees of NDSU's Crop Pest Identification and Management School will have a better awareness of pest problems in Northern Great Plains crops, and tips on how to identify insects and diseases in the field. (NDSU photo) es in the field.

to receive one classroom credit for their participation in the school and passing of a final exam on

tion units (CEUs) will be offered

February 28. A total of 9.5 continuing educa-

to Certified Crop Advisers (CCAs who attend the event.

in North Dakota.

58 million

hours of unpaid family care.

economic value per hour.

A

Cutter is a 15-year old palo-mino quarter horse gelding who mino quarter horse gelding who has spent the last six years help-ing individuals become physi-cally stronger, grow in their con-fidence and find independence. He is one of 10 horses at Bison Strides and was named the 2024

PATH International Region 6 Equine of the Year. This award is given annually to a hard-working, wise equine who represents the heart of the equine-assisted services industry.
"We call Cutter our unicorn

"We call Cutter our unicorn horse because he is so unique in his abilities to meet the needs of participants in every one of our programs," says Erika Berg, Bison Strides program director and associate professor of animal sciences at NDSU.

mal sciences at NDSU.
Cutter is loaned to Bison
Strides by Keith Johnson, a
rancher from Sharon, ND.
"Owning a horse like Cutter
has been a blessing to me and
my family," Johnson says. "I've
been fortunate the last few years
to hear from families of people
he has helped. It was emotional
for me when I heard he had won
this prestigious award. To have
people I don't even know recpeople I don't even know recognize the value he has for the work he does is really special.

Cutter's riders and families have the best things to say about

Kelli and Daniel Leeman's son Teddy, began riding Cutter at age 4

age 4.

"Cutter is the reason that our child is physically so much stronger and willing to try difficult things," Kelli Leeman says. "We cannot articulate how special Cutter is to our family. He is truly

a treasure!"
Terry Heley says that Cutter
has had a life-changing impact
on her 21-year-old daughter
MeKenna's emotional intelligence, adding that riding and
taking care of Cutter has given
MeKanna's aspec of pride

MeKenna a sense of pride.

Bison Strides participant Ellis
Weiss says that Cutter has given her a sense of confidence and helped her not to feel afraid.

"Cutter makes me feel happy!" Weiss adds

February 8, to raise funds that will help maintain the health and care of Cutter and his herdcare of Cutter and his herd-mates, support program devel-opment and implementation, and provide financial assistance for participants in need. Bison Strides also raises dollars to pro-vide equine assisted services for veterans free of charge. Learn more about Bison Strides on Facebook or Instagram, online at www.bisonstrides.org, or by contacting Erika Berg at erika.berg@ndsu.edu or 701-231-9611.

#### GUELPH NEWS... by Rose Sell

continue to be held at the Guelph Community Church at 10:00 am. Sundays with Pastor Scott Townsend officiating, A LITTLE MORE HISTORY: A question was asked last week as to who were the elevator man-agers in Guelph over the years since it's inception in 1887. The information is a bit sketchy since Guelph didn't have its own newspaper. The rails were laid in 1887 and the North West Elevator

and the North West Elevator Company came to build shortly thereafter to the new townsite. It seems Silas R. Dales was probably the first manager because he was referred to as the general postmaster, grain buyer and lumber merchant of Guelph. The next reference to a manager was Lewis Osher of Heda. Then in 1910 Mr. C. Ward of Fillendiale was in charge. In Heda. Then in 1910 Mr. C. Ward of Ellendale was in charge. In 1912 Mr. Russel Harden purchased the elevator and brought his family to Guelph to live in the C.A. Newman home. The very next year Marshall-McCartney of Oakes bought the elevator and Mr. Rob Smith was the agent. In 1915 the Guelph Farmers Elevator. Coop. was formed to

Elevator Co-op was formed to purchase the elevator, selling stock at \$30 a share. They hired Mr. W.L. Dean as manager. In 1920 Mr. H.B. Lee took over. H.A

Nondenominational services Anderson was manager for two continue to be held at the Guelph months before Harry Peterson Community Church at 10:00 of Barnard was hired in 1923. In of Barnard was hired in 1923. In 1926 Mr. H.J. Newman took over as manager until resigning in 1950 when Mr. Ted Steinkogler took over. In 1958 Harold Bauer was hired. Ralph Gelling of Barnard was hired in 1960 with his son Vern as second man. Vern then took over in 1963. Jorgen Sorum replaced Vern with Cliff Seelye as second man. Lark Havenna. as second man. Jack Hayenga was hired as second man in 1969. In 1970 Russell Tveter

1969. In 1970 Russell Tveter came in as manager. During his tenure Kurt Berg, Johnny Moore and Randy Schlenker worked as 'second man'.

Then in 1981 Russell left and Larry Hlavecek was hired. He was only here for one year as his abilities were quickly noticed and he was hired away bring. and he was hired away, bring ing in Jeff Strickertz from LaBolt, SD, 1983. This is as far as the 'Guelph Book' goes so further research is indicated to bring you up to date. THOUGHT FOR THE WEEK:

"Don't ask yourself what the world needs, ask yourself what makes you come alive. And then go and do that. Because what the world needs is people who have come alive.

- Howard Washington Thurman
